

**Mary Gee of *Gee & Assoc.* with *The Dry Eye Doctor* Present:
The AB Mask
With Sterileyes Antibacterial Protection**

The product:

The AB MASK revolutionises PPE / face masks. Patented Sterileyes® is bound to fibres of our fabrics and is clinically proven to kill 99.99% of bacteria. The AB Mask is **reusable, washable and recyclable**. You get basic protection with an added antibacterial layer.

Soft, dark blue patented Antibacterial outer fabric with adjustable cords around the ears for a perfect fit for all. Breathable and lightweight fabric, ideal for continuous use. (labelling shown for position only – this will be replaced with AB MASK / STERILEYES®)

Dark blue patented Antibacterial inner liner with an opening for the replaceable filter. Product to be supplied with a 2.5-month supply of filters (10 filters)

The Filter:

Medical Grade Specs:

- **Bacterial Efficiency of Sterileyes ® Polygiene ® Fabric is 99.9% Antibacterial**; Biocide of Silver Salt from recycled Silver* reaction mass of Titanium Dioxide & Silver Chloride; **both inner & outer layers of the Mask are patented, soft Antibacterial Fabric protection**
- **Replaceable Filter (5 layers)** is PM 2.5 micron filtration efficiency; 5 layers of anti-stick cloth / a filter cloth / and an activated carbon layer filters
